

MADISON WATERSHED PLANNING MEETING:

EXAMPLE MANAGEMENT PRACTICES TO IMPROVE WATER RESOURCES

May 31, 2017
6:00 PM EL WESTERN
CONFERENCE CENTER

Meeting Objectives:

- Provide an overview of the watershed characterization information that has been covered in previous meetings
- Discuss the priority concerns that have been identified in previous meetings
- Discuss example management strategies that can help address the identified water resource concerns
- Obtain feedback on priority concerns and assess the potential success of the example improvement strategies

MEETING AGENDA:

- I. Welcome & Introductions
- II. Overview of what we've learned from previous meetings
- III. Discussion on priority concerns
- IV. Discussion on example management practices & strategies to address concerns
- V. Next Steps
- VI. Question & Answer
- VII. Prioritization and Feedback

WHAT'S COMING UP?

(July): Complete the watershed characterization report to refine key areas to focus on.

(July—August): Convene smaller stakeholder group to finalize more specific priority locations and concerns

(August—September): Work with stakeholder group to develop specific practices and projects for priority locations.
