Agenda

Regular Board Meeting **7:00 PM** May 19th, 2020
Lion's Park Pavilion in Ennis, MT

1. Call meeting to order: 7:00
2. Review minutes from previous meetings: 7:05
3. Financial-Emily Osborn: 7:06
4. Public Comment:
5. NRCS Report:

NRCS offices are still closed to the public, but conducting field work and phone appointments. I haven't heard any official guidance as to when we will open offices to the public. Field offices are waiting on state office to approve applications for funding this year. Obligation deadline for contracting has been moved to June 15. The S. T-roots conifer project should receive \$250K for funding. 7 applications are within Sage Grouse habitat, and eligible for funding through the statewide SGI conifer encroachment fund pool. With our current applications, we have 3150 acres planned and shovel ready for brush management and woody residue treatment. Estimated cost of \$410K. Most of the inventory, planning, and other documentation is complete. Actively working w/ Southwest MT Sagebrush partnership to coordinate cross-boundary treatments, and Gravelly Landscape collaborative to develop outreach and communication plan. Will be meeting in the next couple weeks to develop a "product" to deliver message. HEL compliance reviews will be conducted in the next few weeks. WRE / Wetland Easement annual monitoring will be completed in June. CSP renewals will be obligated in July, we will only have 1 application. General CSP sign up will have an obligation deadline in the late summer/ fall. We have 1 application.
